Contrada Ercoli, 127, Giazza

AGRITURISMO DAL BOSCO EIBANER

Lino Dal Bosco Eibaner, dal ramo della famiglia che originariamente abitava in Contrada Eiban, è l'unico dei nipoti di Giuseppe ad essere rimasto qui a Contrada Ercoli, portando avanti l'attività nei campi e ad allevare il bestione, sia bovino che ovino, che si tramanda sin dal XV sec. Con la moglie e la figlia Ilenia hanno aperto l'agriturismo nei primi anni '90, utilizzando i prodotti dell'azienda agricola. Piatto tipici: gnocchi di molga, piatti a base di carne di produzione aziendale ma anche selvaggina. Luogo di partenza ideale per i sentieri della zona.

Una dal Bosco Eibaner, from the branch of the family that originally lived in Contrada Eiban, is the only one of Giuseppe's grandchildren who has remained here in Contrada Ercoli, carrying on the activity in the fields and raising livestock, both cattle and sheep, that has been handed down since the 15th century. With his wife and daughter Ilenia, they opened the farmhouse in the early 1990s, using products from the farm. Typical dishes: gnocchi di molga, meat dishes made on the farm, but also game. Ideal starting point for the trails in the area.

PIZZA MONS. W. PATEGGIO, 23, CAMPOLONTANO ALBERGO RISTORANTE LA MONTANARA

Appena ristrutturato, a Campolontano downtown, si magna ben e si paga il giusto. Hanno già aperto un'azienda agricola vicino agli splendidi prati che danno a sud di una splendida vallata, super wild, che da San'Andrea sale verso San Bartolo, 2 ettari, forse qualcosa in più, dove, c'è un orchio di riguardo per i rimi naturali, l'agricoltura circolare e la preservazione della biodiversità nel pieno rispetto di anime e natura, seguono le pratiche agronomiche dell'agricoltura biologica e biodinamica e in linea con questo filosofia coltivano zafferano, legumi, ortaggi e grani antichi, producono miele e allevano gatti di razze antiche. Custodie la biodiversità recuperando e riseminando antiche varietà di grani che coltivano i nostri bisnonni.

Alimentari di posse come si deve, con forno per la produzione di pane e affini (pizze, dolci...) e salumi molto buoni di produzione propria.

AZIENDA AGRICOLA FABIO PELOSO

Se stai facendo una notturna sul Carega e ti imbatti in un pezzo che si muove al buio con le candeole, non davi preoccuparti. Anzi! Hai appena incontrato Fabio Peloso, un ricercatore italiano studiato al "mao oviù" dichiara il prof. Vito Massalongo e, soprattutto, un malgare vero. Uno di quelli che, come da tradizione familiare, è specializzato in vacche all'alpeggio e fa i formaggi in molga come nelle antiche tradizioni, in quell'angolo di paradiso che è Malga Campobrun. E che produce latte, burro non pastorizzato, yogurt e formaggi cotti ad alto nominale. Il suo "mao oviù" è un Outdoor Organic Farm of about 2,000 m2 - e, soprattutto, un malgare vero. BABY ALPACA

In Contrada Venchi c'è "l'uomo che sussurra agli alpaca": andate su Instagram e capirete. Tutto è partito da un colpo di fulmine una decina di anni fa, quando il prof. Vito Massalongo si è accorto che le vacche e le capre e gli alpaca: oggi passeggiate, visite guidate, trekking, yoga, centri esotici... tutto sempre in compagnia di questi enotici e simpaticissimi buffalotti lo cui lana, di altissima qualità, viene utilizzata anche per realizzare cuscini, trapunte e gomitori.

Da sottolineare che l'allevamento ha vinto premi importanti, proprio per la cura che hanno messo in loro amati quadrupedi.

Contrada Venchi is home to "the alpaca whisperer" who goes on Instagram and you understand. It all started with a lightning strike a decade ago with llamas and alpacas: today walks, guided tours, treks, yoga, summer centres... everything always in the company of these huge and very cute little fluffywh whose wool, of the highest quality, is also used to make pillows, quilts and balls. It should be noted that the farm has won major awards, precisely because of the care they have for their beloved quadrupeds.

AZIENDA AGRICOLA NICOLA RANCAN

Da 7 anni pastore, ovvero da quando ne aveva poco più di 20, Di Mezzano, figlio di alpinoista, iscritto al corso di laurea in Antropologia a Bologna, non ha resistito quando il piano di una prima sessione ha risposto al richiamo della natura. Ed è partito così, in compagnia di un gregge di brogne che d'estate incontri al pascolo nei splendidi passeggi sopra Giazza (vicino a Sella le base) e d'inverno a quote più basse, avvicinandosi alla piana dove pratica la pastorizia novada. Un altro idolo che rimpicchia l'ondata di nuovi idoli che dimostrano che il surf è morto.

A shepherd for 7 years, that is, since he was just over 20, from Mezzano, the son of a mountaineer, enrolled in a degree program in Anthropology in Bologna, he could not resist much in the plains and at the first opportunity he answered the call of nature. And so he set off, in the company of a flock of brogne that responded to the call of nature, grazing in the beautiful landscapes above Giazza (Malga Sella le base) and in the winter of lower altitudes, approaching the plains where he practices nomadic pastoralism. Another idol plunging us into the wave of new idols proving that surfing is dead.

AZIENDA AGRICOLA ORKO BEKO
Mollare tutto, seguire il cuore e diventare pastori: capre che pascolano all'aperto e che si nutrono di solo erba buona, no mangimi. Mangerle e trasformare il loro latte in formaggi e le loro capre in prodotti delicatissimi salami. Sono partiti da Badia Calavena, sono riusciti a ristrutturare gli antichi spazi di Contrada Riva, a Velo, e sono riusciti a portare avanti l'attività in un'azienda che loro fanno vivere. Hanno riaperto un "logo" del latte. Hanno rinominato una contrada ripartendola ad una dimensione molto simile a quella originale, con lo spazio aperto ai Sabati e Domeniche, dove organizzano esperienze 101% pure Lessinia e dove non stanno fermi neanche un secondo. Un bel esempio.

Drop everything, follow their hearts and become shepherds: goats that graze outdoors and that eat only good grass. Mangerle them and turning their milk into excellent cheeses and their meat into delicious salami. They started from Badia Calavena, managed to renovate the old spaces of Contrada Riva in Velo, and bring them back to their original function: stables, barns and the milk lab. They have revived a contrada bringing it back to a dimension very similar to the original one, with the store open on Saturdays and Sundays, where they organize 101% pure Lessinia experiences and where they don't stand still for a second. A very good example.

Allevano anche vacche e capre e le vacche di pollame vivaci all'estensione, diventu qui un progetto concreto, unico e prezioso da portare avanti con passione... Come se non bastasse, i vari cascatori con stallo e portico, sono in via di sistemazione e diventeranno il laboratorio per il miele e lo zafferano ed il punto vendita. In corso anche l'impalmento dei polli con la creazione di un allevamento biologico all'aperto di circa 2000 mq.

Matteo and Chiara, 2 modernday heroes who are making a small masterpiece. In 2 they don't make 50, but they have already opened a visionary farm on the beautiful grasslands that give south of a gorgeous, super wild, little valley that rises from San'Andrea to San Bartolo, 2 hectares, maybe a bit more, where, with an eye for natural rhythms, circular agriculture and the preservation of biodiversity with full respect for animals and nature, they follow the agronomic practices of organic and biodynamic agriculture and in line with this philosophy cultivate zaffron, legumes, vegetables and ancient grains, producing honey and raising chickens of ancient breeds. Preserving biodiversity by recovering and reseedng ancient varieties of grains that cultivate our great-grandparents cultivated or ancient breeds of poultry close to extinction, becomes here a concrete, unique and precious project to be pursued with passion. As if that were not enough, the various cottages with a barn and porch are being renovated and will become the honey and salion workshop and sales point... Also underway is the expansion of an allevamento biologico all'aperto di circa 2000 mq.

An incredible story, born 100 years ago from the cheeses that Mr. Giuseppe Zerbatto produced from these bands, between Verona and Vicenza, and reaching Elyric today, one of the largest producers of only ricotta in Italy. All dedicated to his daughter and her wife of his son Lino, who founded the artisanal dairy proper in the 1960s.

ERBA MADRE
Una realtà partita da una scelta coraggiosa da parte del fondatore Giovanni Bagatin. Visionario, è stato il primo a credere nel far di valorizzare la ricchissima flora della Val Tragnino e il potere delle erbe di qua, magicamente usate con un mix sapiente di erbe tradizionali quasi dimenticate e contributi scientifici della modernità nel pieno rispetto di questo paesaggio angolo verde della provincia veronese. A proposito, se volete vedere un ufficio da sbrego, non cercate in Silica Valley, ma andate nella Tragnino Valley e lookatevi gli occhi... ciao!! CASEIFICIO ARTIGIANO GUGOLE DARIO
Un po' per anzianità, un po' per i tanti primi collezionisti in tutti il mondo, Dario è probabilmente la star dei formaggi italiani: Dario è ripartito con un gregge di capre che sono libere di brucare nei prati della Lessinia e con il latte delle quali produce ottimi e naturalissimi formaggi. Da quest'estate mangerà la sua care caprette direttamente al pascolo, usando un palchetto mangiatura realizzato interamente da noi con l'aiuto di qualche amico*.

Partly because of seniority, partly because of the many awards he has collected all over

the world, Dario is probably the star of the local cheese makers: he claims he didn't get married because he married cheese. There are 2 outfits: one in San Bartolo every night where the barn is, one in San Giovanni at the dairy. They also have cured meats made from his pigs.

CASEIFICIO PUNTO VERDE

Valentino Rama, anche grazie al coinvolgimento dei figli in azienda, ha dato una bella svolta: da pochi anni hanno ripartito tutta la struttura, affiancando un'allevamento del bestame un caseificio con tecnologie di avanguardia. E quindi i formaggi ma anche lo yogurt, il burro e i gelati vengono prodotti con il latte delle mucche che pascolano serene nei splendidi prati attorno a Dossò Rindel. Da qui il nome dell'ortaggio di loro invenzione: il Rindel, appunto. Il risultato finale è il top: lo yogurt e formaggi e le loro qualità e i loro apprezzamenti dai migliori conoscitori in materia. Ottimo rapporto qualità/prezzo.

Valentino Rama, thanks in part to the involvement of his sons in the business, has turned things around: a few years ago they renovated the entire facility, adding a dairy of the forefront of technology to the cattle farm. And so cheeses, but also yogurt, butter and ice cream, are made from the milk of the cows that graze serenely in the beautiful meadows around Dossò Rindel. Hence the name of the cheese of their invention: the Rindel, indeed. The end result is top notch: this is also confirmed by the quality of their meat that is highly appreciated by the best connoisseurs in the field. Excellent value for money.

I FRUTTI DEL POZZEULO
Azienda familiare nata nel 2003, Pozzeulo visto la grande quantità d'acqua, dopo che Giuseppe Zerbatto mollava due vecchie vacche e ha ripreso l'attività di famiglia, portandola dall'allevamento di bestame alla coltivazione di piccoli frutti: more, lamponi, ribes, mirilli, fragole e deligie... un'azienda producendo anche i famosi succhi, marmellate e composti. In più ci sono le immancabili patate tipiche, ma anche vari altri ortaggi e infine prodotti stagionali: Piú castagne, noci... c'è anche il famoso didedo dove si vendono diversi prodotti in gita a scatenarsi tra i filari di frutti rossi.

A family business established in 2003, in Contrada Pozzeulo, after John quit his old job and took over the family business, taking it from cattle breeding to the cultivation of small fruits: blackberries, raspberries, currants, blueberries, strawberries, cherries... and transforms them producing delicious juices, jams and compotes. In addition there are the inevitable typical products: the legendary Mirum and Luca, ages 19 and 25. They are the new managers of the reuge built by Cai Cesare Battati in '53, bringing materials up by mule and, only later, thanks to a rudimentary cable car. It is dedicated to Mario Fraccaroli, a mountaineer killed April 26, '45, in Verona by a German patrol.

LA PECORA NEL BOSCO

Potrebbero sembrare dei semplici pastori. Mattia e Sofia, ma invece no. Sono pagorari transumanti e c'è una bella differenza perché la nostra montagna ha bisogno anche di pecore

SALMON'S GUIDE TO VERONA LESSINIA ORIENTALE

La Lessinia Orientale è stata la sfida nella storia: avevamo pochissime e vaghissime informazioni in questo angolo di mondo così vicino a Vicenza. Proprio per questo l'abbiamo tenuta per ultima. Ed è stata la sorpresa delle sorprese, osservando Fedele e Instagram, ci ha portato il primo contatto con Pro Loco di Bolca (ed è già un indizio importante, che fa capire tante cose). I ragazzi sono stati il nostro Virgilio in questo territorio così denso di storia, esplorazioni e asini neri, volendo romanzare, può anche ricordare un paesaggio infernale. Ci hanno accolti e coccolati come papà, ci hanno portato in giro come neanche il nostro Dante, ci hanno fatto degustare le meglio presceltate, che neanche Vissani e ci hanno presentato tutti i più importanti vini della zona, svelandoci segreti che neanche tra di loro si erano mai detti. Probabilmente è il momento.

E che idea ci siamo fatti? 1. Se avete in mente gente di montagna fuori dal mondo, greto, chizzo, insospetite, con contorni d'aria. Ci sono i "guy's" sul pezzo, che vivono nel 2022, consapevoli di dove si trovano e di dove sta andando il mondo e, anzi, hanno una marcia in più. 2. Persone di tutte le età, giovani e adulti, che dialogano e collaborano tra di loro come nulla fosse, guidate da un commovente amore per la propria terra. Amore che incide sul territorio, persone che non hanno paura di mettere i piedi dove ne determinano le scelte. Bello, molto bello!

3. Era facile immaginare che da fuori non avremmo visto nulla di speciale, ma Lessinia è tutto la leggenda, sono una cosa da fuori di testa. Oggettivamente, questa zona è una delle aree più interessanti al mondo su questo argomento. 4. Come la Lessinia, è un territorio e gli appassionati di bei maschi? (edenti).

5. Attenzione, tema delicato: l'esperienza partigiana. Qui, da queste parti, non è un tema da evitare. È un tema importante, che se saremo onesti, ma è stata una rivelazione che ci ha reso la complessità di quel momento storico.

6. Un botto, ma veramente un botto, di giovani strasto-strastigli che hanno deciso di andare lì e fare agricoltura e innovazione in un modo totalmente nuovo, contemporaneo, al passo con i tempi. 6. Giazza sta morendo.

Eastern Lessinia was the challenge within the challenge: we had very little and very little information on this area and in the corner of the world so close to Vicenza. That is precisely why we saved it for last. And it was the surprise of surprises, of course! Fedele was Instagram: through his profile contact we got the first contact with Pro Loco di Bolca (and it's already an important clue, which makes so many things clear). The guys were our Virgil in this territory so dense with volcanoes, explorations and black asses. Wanting to romanticize, we can also remind us of a hellish landscape. They welcomed and pampered us like papas, took us around as if we were their Dante, made us taste the best delicacies that not even Vissani and introduced us to all the most important WPs in the area, revealing secrets that even among themselves they had probably never told each other.

And what idea did we get? 1. If you have in mind outdoor, city, closed, inhospitable mountain people, here you will not find them. There are "guys" on the ball, living in 2022, aware of where they are and where the world is going, and, indeed, they have an edge.

2. People of all ages, young, adults and elderly, who dialogue and collaborate with each other like nothing else, guided by a moving love for their land. Love that affects the local people who are active in the politics of the territory and who determine the choices. Beautiful, very beautiful!

3. It was easy to imagine, but from the outside we had grasped. This Lessinia area is a real gem, a real gem, a real gem. Objectively, this zone is one of the most interesting areas in the world on this subject. It is like Jamaica for female fans and fans of beautiful models: edenti.

4. Attention, sensitive topic: the partisan experience. Here, in these areas, it was not all sunshine and roses. Inevitably, we didn't expect it, but it was a revelation that made us realize the importance of this theme. It is a topic, but really a bang, of supercool young people who decided to go there and do farming and pastoralism in a totally new, innovative, contemporary, up-to-date way. Giazza is dying.

outside as well. People also used to go at night, with a torch. Recently searches have been made and few specimens have been found.

Via Chiesa, Bolca
M. IL VECCHIO TEATRO
Di proprietà della Chiesa, dove c'era la casa delle toscane. Con palco e tutto il necessario, la domenica dopo il vespero (la messa) si faceva la commedia e poi la sagra. Importante centro culturale di un tempo che fu.

Owned by the church, where the "Tuscan house" were. With stage and everything needed, on Sundays after vesper (mass) they used to do comedy and then sagra. Important cultural center.

N. L'ONDA DI CATTIGNANO
L'Onda Fluviale del Monte Biron, vicino a Cattignano, è un fenomeno che ha avuto origine nel Cretaceo, circa 40 milioni di anni fa. Parete di rocce calcarea che, per l'azione di erosione causata dalle onde marine che continuavano a sbalzare per milioni di anni contro il tiratore calcareo, venne modellata in questa inconfondibile forma ad onda. Nei successivi periodi della preistoria divenne anche rifugio per i primi abitatori della valle. Simili tracce si trovano in altre zone della Lessinia.

The River Wave of Mount Biron, near Cattignano, is a phenomenon that originated in the Cretaceous, about 40 million years ago. Wall of limestone, created by the action of erosion caused by sea waves that continued to slam against the limestone shoreline for millions of years, was shaped into this unmistakable wave shape. In later periods of prehistory it also became a refuge for the valley's earliest inhabitants.

O. LA BUSA DELLE ANGUANE
A nord ovest della Purga, una cascata notturna rivela un percorso sotterraneo lungo il riparo delle "Anguane", creature magiche con sembianze di donna. "Ogni giorno prendevamo un po' più di coraggio e facevamo 10 metri di buco in più per vedere quello che c'era sotto". Purtroppo anche lì c'è un muro che è stato fatto per raccogliere l'acqua.

Northwest of Purga, a natural waterfall reveals a subterranean path of incredible shapes and, indeed, they are magic things! "Every day we took a little more courage and went 10 meters further into the woods to see if there was anything there, until we ended up in front of the wall of the cave. There is also a wall there that was made to collect water."

calcinissimi e simpoticiissimi gamberi di colore verde scuro.

Dolce, disputo, hotly debated and highly felt topic: it is definitely in Bolca, but locals are keen to determine the exact point even though there are actually several points. The signal tower, on one has been closed by those who manage the water. In the good old days, the water that flowed from here was used for 2000 different purposes and was inhibited by very cute and friendly dark green shrimp.

X. LA STRADA DELLA MEMORIA
Percorso lungo i luoghi della memoria della II Guerra Mondiale. Un cammino immerso nel verde, tra castagni, verdi colline, paesaggi e natura. Un percorso di pace e morbida bellezza. Nel 2014, in occasione del 70° anniversario delle rappresaglie dei nazifascisti, Venstanova ha ricordato i suoi morti e i suoi feriti con una famiglia di sette dolci incendi delle loro case, delle distese del bestiame, dei loro risparmi e ricordi di una vita ed ha organizzato una camminata attraverso le contrade materine del 10 luglio (Luigi, Prezanni, Montanari, Brusaferrì), con la presenza dei gagliardotti di Alpini, Carabinieri in congedo e con la partecipazione di centinaia di persone.

Route along the places of memory of World War II. A path surrounded by greenery, among chestnut trees, green hills, landscapes and views of enchanting and soft beauty. In 2014, on the occasion of the 70th anniversary of the reprisals of the Nazi-fascists, Venstanova remembered the dead and the sacrifices of so many families destroyed by the burning of their houses, stables, livestock, their savings and memories of a life and organized with a walk through the districts materine of July 10 (Luigi, Prezanni, Montanari, Brusaferrì), with the presence of the parents of Alpini, Carabinieri on leave and with the participation of hundreds of people.

TEDX BOLCA
Dalla Silicon Valley alla molto più figa d'Alpone Valley! Dai più importanti personaggi al mondo, ai più rilevanti intellettuali locali e non solo. Il TEDx Bolca mira a diventare il nuovo punto di riferimento globale e la valle che lo ospita, candidata ad essere presto riconosciuta come patrimonio mondiale Unesco, ne sarà più che adeguata location. Bellissima iniziativa dei giovani idoli di Bolca che una volta di più testimoniano quanto sono avanti. Prima edizione: 17 Settembre 2022. Passato e Futuro il tema.

From Silicon Valley to the much cooler Alpone Valley! From the world's leading figures to the most relevant local intellectuals and beyond. The TEDx Bolca aims to become the new global reference point and the valley that hosts it, a candidate to be soon recognized as a Unesco World Heritage Site, will be more than adequate location. Beautiful initiative of the young idols of Bolca who once again testify how far ahead they are. First edition: September 17, 2022. Past and Future the theme.
